Text: razakhan26june@gmail.com

Experienced developer in the field of web development, UI design, and UI development. With excellent proven experience in managing teams and product delivery. I'm seeking an opportunity to work in a challenging organization to utilize my skills and knowledge for the growth of the organization.

EXPERIENCE 9+ years in IT (Total 14 years)

Senior Web UI Developer

Indkal Technologies Pvt Ltd | March 2025 - Present

- Develop, customize, and maintain WordPress websites for 2 licensed brands (Acer, Black & Decker) and 2 own brands (Wobble, Perrel).
- Manage complete website operations, including design, hosting, domains, and email providers.

Senior Web UI Developer

Intellipaath Software Solutions | July 2019 - March 2025

- Designed and developed web application interfaces with UI/UX solutions, converting them into HTML/CSS and creating responsive screens for iPad and iPhone.
- Led a small team, assigning tasks, ensuring timely project completion, and integrating APIs for seamless functionality.

Web Developer

AI Amal JRS | April 2018 - April 2019

- Designed mockups and web pages for the KCST College website, ensuring a clean and responsive user interface. Converted designs into HTML and CSS while maintaining cross-device compatibility. Developed a custom CMS to make the website fully dynamic and easily manageable. Delivered a comprehensive informative platform addressing all college-related queries.

Web Designer

Jamtech Technologies | May 2016 - January 2018

- Developed and customized responsive WordPress websites for multiple clients, including **G&W Lumber** and **Coastal Cab**, ensuring optimized performance and cross-device compatibility.

Junior Web Designer

Quaere e-Technologies | April 2015 - May 2016

- Designed and developed creative web & mobile UI layouts using Photoshop, enhancing user experience. Converted PSD designs into fully responsive HTML/CSS webpages to ensure cross-device compatibility.
